

GRUPO FOLCLÓRICO NOSA TERRA

Nosa Terra de Pereiras is a traditional dance group founded in 1981 in Mos, Galicia, with the purpose of contributing to the conservation of Galician's traditional culture about dancing and music. For this reason, the group is formed by: on the one hand dances and on the other hand musicians. In our group you can listen to the traditional instruments such as bagpipes, drums, tambourine and other more current instruments like the accordion and the clarinet.

The dances and music go through XVIII and XX centuries and through all Galician's geography. The dance implies a elaborated coreography based on traditional knowledge and also traditions collected from the elders.

The pieces of clothing from the dancers and musicians represent different ways of costumes in Galicia: the ones used in weddings, celebrations, work... This type of clothing is very characteristic and the huge amount of pieces they include are characteristic too, specially the ones for women.

Nosa Terra offers a show that takes you closer to our culture and spreads the history of a people that are really into joyful dances and music that make you move from your seat.
